Mr. Arnold Leese  
20, Pewley Hill  
Guildford, Surrey  
England

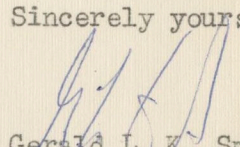

Dear Mr. Leese:

Jewish pressure is moving in on me in the United States in an attempt to brand the distribution of the Protocols as a fraudulent operation. We have an abundance of evidence to establish our side of the issue, but I would appreciate hearing from you concerning your ability to supply the results of your research on the matter.

Please do not publish any reference to this, because I prefer that it not be known. We have tremendous files supporting the authenticity of the Protocols, but I would be interested in anything of a special nature which you may have.

Do you have contacts in Switzerland who could bring me up to date on the various legal actions that were undertaken there?

Sincerely yours,

  
Gerald L. K. Smith
